FOURTH REVISED PAGE 1

CANCELS THIRD REVISED PAGE 1

A1. DEFINITIONS OF TERMS

A-Side

Cellular service provided using the frequencies of 824-835/845-846.5/869-880/890-891.5 megahertz (MHz).

AT&T Prepaid Card

A card issued by the Company and purchased by a customer for use with AT&T Prepaid Card Service.

B-Side

Cellular service provided using the frequencies of 835-845/846.5-849/880-890/891.5-894 MHz.

Bill To Third Party

Denotes a billing arrangement by which a long distance call may be charged to an authorized station as determined by the Company other than the station originating the call or the station where the call is terminated.

Building (Same)

The term "same building" is to be interpreted as a structure under one roof, or two or more structures under separate roofs but connected by enclosed passageways. In those cases where there are several structures under separate roofs, but connected by enclosed passageways and the plant facility requirements for furnishing service are appreciably greater than would be required normally if all the structures were under one roof, the term "same building" applies individually to each of the separate structures. Pipes and conduit are not considered enclosed passageways.

Call

An attempted or completed communication.

Calling Card

A card authorized by this Company to which the charges for a Message Telecommunications Service call may be billed. A Calling Card may be an AT&T Calling Card, a local exchange carrier's Calling Card, or its equivalent, or a commercial credit/charge card. Calling Cards may be either Commercial Calling Cards or Consumer Calling Cards.

Cellular Access

Mobile radio telephone service provided in a geographical area divided into cells, each with its own base station that relays calls to a mobile telephone switching office.

Central Office

A switching unit providing telecommunications service to the subscribers connected thereto.

Class Of Service

See "Message Telecommunications Service."

CANCELS THIRD REVISED PAGE 2

A1. DEFINITIONS OF TERMS

Collect Call

The procedure by which certain messages, upon request, may be reversed (charged to the called station) upon acceptance of the call at the called station.

Communications Systems

Channels or other facilities which are capable, when not connected to telecommunications services, of two-way communications between terminal equipment.

Company

Wherever used in this tariff, "Company" refers to AT&T Communications of the South Central States, LLC, unless the context clearly indicates otherwise.

Connecting Arrangement

The equipment which is used to accomplish the direct electrical connection of certain terminal equipment and communications systems with the facilities of the Company.

Connecting Company

A corporation, association, firm or individual, licensed and operating as a communications common carrier, owning and operating a toll line and/or one or more central offices providing local exchange telephone service and with whom the Company interchanges traffic.

Consumer Calling Card

Any Calling Card that is not a Commercial Calling Card.

Customer Dialed Calling Card Station

See "Message Telecommunications Service".

Customer-Provided Test Equipment

Non-Company test equipment which is located at the customer's premises and used for the detection and/or isolation of a communications service fault.

Demarcation Point

The electrical terminus of an access line. It provides a physical interface to the access line in terms of design, installation and testing.

Dial Station

See "Message Telecommunications Service".

Direct Electrical Connection

A physical connection of the electrical conductors in the communications path.

FOURTH REVISED PAGE 3

CANCELS THIRD REVISED PAGE 3

A1. DEFINITIONS OF TERMS

Exchange

See "Exchange Service Area."

Exchange Service Area

The territory, including the base rate, suburban and rural areas served by an exchange, within which local telephone service is furnished at the exchange rates applicable within that area.

Foreign Exchange Service Capability

See "Section A8-Foreign Exchange Service Capability."

Grandfathered

A term that describes terminal equipment, that was directly connected to Company services in accordance with Company tariffs and that is grandfathered under Part 68 of the Federal Communications Commission's Rules and Regulations.

Hunting Arrangement

Routes an 800 Service call to an idle access line in a prearranged group when the called access line is busy.

Initial Service Period

The minimum period of time for which service, facilities and equipment are provided.

Installation Charge

A nonrecurring charge applying to the provision of certain items of equipment or facilities.

Interface

That point on the premises of the customer at which provision is made for connection of other than Company provided facilities to facilities provided by the Company.

Kentucky Relay Service

The Kentucky Relay Service permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

A1. DEFINITIONS OF TERMS

Local Access And Transport Area (LATA)

A geographic area established by a divested Bell Operating Company which delimits its operational area.

Local Exchange Carrier

Carriers authorized to provide exchange service.

Message

A communication between two stations.

Message Telecommunications Service (MTS)

The furnishing of facilities provided by AT&T for communications between stations in different rate centers for either two point or conference service. There are six classes of MTS services:

Dial Station - A service whereby the person originating the call dials the telephone number desired without the assistance of a Company operator and the call is billed to the calling station, except as specified in A5.3.1A.1.

Customer Dialed Calling Card Station - A service whereby the person originating the call dials and completes the call without the assistance of a Company operator and the call is billed to a Calling Card as defined in A5.3.1A.2.

Operator Station - The MTS class of service where the person originating the call gives to the Company operator or the relay operator at the Kentucky Relay Service the telephone number of the desired station and does not specify a particular person to be reached, except as specified in A5.3.1A.4.

Person-to-Person - The MTS class of service where the person originating the call specifies to the Company operator or the relay operator at the Kentucky Relay Service a particular person to be reached, except as specified in A5.3.1A.5.

Real Time Rated - Operator Station/Person-to-Person - A toll call whereby the person originates and pays for the call from a public or semi-public telephone, or whereby the Company furnishes the time and/or charges as specified in A5.3.1A.6.

Operator Dialed Calling Card Station - A service whereby the AT&T Operator dials the telephone number desired for the calling party and the call is billed to a calling card as defined in A5.3.1A.3.

CANCELS FIFTH REVISED PAGE 5

A1. DEFINITIONS OF TERMS

Miscellaneous Common Carriers

Miscellaneous Common Carriers, as defined in Part 21 of the Federal Communications Commission Rules, are communications common carriers which are not engaged in the business of providing either a public message telephone service or public message telegraph service.

Mobile Identification Number

The telephone number associated with a cellular mobile telephone.

Multiline Terminating System

Premises switching equipment (e.g., PBX, Centrex, ACD, tandem switching equipment) and key telephone type systems which are capable of terminating more than one local exchange service line, WATS access line, circuit or communications system.

Non-Subscriber Service Charge

A service charge applicable to interLATA Dial Station Calls originated from residential lines which are presubscribed to an interexchange carrier other than AT&T, or not presubscribed to any interexchange carrier.

Operator Dialed Calling Card Station

See "Message Telecommunications Service."

Operator Station

See "Message Telecommunications Service."

Personal Communications Service (PCS) Access

Mobile radio telephone service provided in a geographical area divided into cells, each with its own base station that relays calls to a mobile telephone switching office.

Person-To-Person Call

See "Message Telecommunications Service."

Point-Of-Presence

An office of this Company from which services are furnished.

Premises (Same)

The term "same premises" shall be interpreted to mean: (a) the building or buildings, together with the surrounding land occupied or used in the conduct of one establishment or business, or as a residence, and not intersected by a public thoroughfare or by property occupied by others; or (b) the portion of the building occupied by the subscriber, either in the conduct of his business or as a residence, and not intersected by a public corridor or by space occupied by others; or (c) the building or portion of a building occupied by the subscriber in the conduct of his business and as a residence provided both the business and the residence bear the same street address; or (d) the continuous property operated as a single business whether or not intersected by a public thoroughfare.

A1. DEFINITIONS OF TERMS

Protective Circuitry

One or both of the following: A Company-provided connecting arrangement or discrete electrical circuitry that is within the scope of the Registration Program and is designed to protect Company services from harm.

Public/Semi-Public Telephones

Coin operated or coinless telephones which are generally available for public use. These telephones can be owned by local telephone companies, interexchange carriers and/or private Customers. Calls from coinless telephones must use an alternate billing method such as calling card, commercial credit card, third number or collect.

Real Time Rated

See "Message Telecommunications Service."

Station-To-Station Call

See "Message Telecommunications Service."

Service Charges

Service charges are applicable to Customer Dialed Calling Card Station, Operator Dialed Calling Card Station, Operator Station, Person-to-Person and Real Time Rated calls and for Busy Line Verification and Busy Line Interruptions. These charges are in addition to the initial period and additional period charges applicable to a call.

Suspension Of Service

An arrangement initiated by the Company for violation of tariff regulations by the subscriber whereby the service is temporarily discontinued without terminating the service agreement.

Telecommunications Services

The various services offered by the Company as specified in this General Services Tariff.

Telephone Number

A designation assigned by the local exchange carrier to a telephone service for convenience in operating.

A1. DEFINITIONS OF TERMS

Terminal Equipment

Devices, apparatus and their associated wiring, provided by a customer and do not include customer-provided communications systems.

Toll Service

See "Message Telecommunications Service."

USOC (Uniform Service Order Code)

A Company-assigned code used on internal records for service identification purposes.

VRMS (Volts Root-Mean-Square)

The effective value of AC voltage.

Wide Area Telecommunications Service (WATS)

The furnishing of facilities for dial type telecommunications between a WATS access line, and another location that is within the state of Kentucky.
